**BROOKLYN SPORTS & ENTERTAINMENT ANNOUNCES
HIGH POINT SOLUTIONS, INC., AS A MAJOR PARTNER
OF THE BARCLAYS CENTER IN BROOKLYN**

High Point Solutions is a Cisco® Gold Certified Partner

--Ninth Major Sponsor for the Barclays Center--

BROOKLYN -- Brooklyn Sports & Entertainment (BSE), an affiliate of Nets Sports and Entertainment, LLC, today announced that High Point Solutions, Inc., a Cisco® Gold Certified Partner, and a leader in network planning, design, implementation, operation and optimization, has become a major partner for the planned Barclays Center in Brooklyn.

As part of the multi-year alliance, High Point Solutions will be the Official I.T. Networking Equipment Provider for the Barclays Center. Additionally, High Point Solutions will be the title sponsor of the High Point Solutions Chairman's Club, an upscale lounge for VIP guests, key partners of the Barclays Center, and team investors, which will be located on the Barclays Center's event level. High Point Solutions will also receive designated space on the main concourse for a technology showcase of its products and capabilities.

"We are thrilled that High Point Solutions, one of the most prestigious Information Technology companies in the nation, will join as a major partner of the Barclays Center, where it will expand its brand identity throughout the metropolitan area," said Brett Yormark, president and CEO of Brooklyn Sports & Entertainment. "High Point Solutions is already a valued NETS partner, and we are excited that this best-in-class company is demonstrating its commitment to the Barclays Center and bringing the best of sports and

entertainment to Brooklyn. Our alliance is yet another example that the marketplace is excited and confident about the arena and the renaissance of the borough.”

Based in Sparta, NJ, High Point Solutions specializes in network assessment, routing and switching, wireless LAN, network security and pre-staging, consulting and implementation services, WAN optimization, and advanced technical support.

High Point Solutions joins a stable of best-in-class companies which have signed on as partners for the Barclays Centers, including: ADT, Anheuser-Busch, Cushman & Wakefield, EmblemHealth, MGM Grand at Foxwoods, MetroPCS Communications, Jones Soda Co., and Phillips-Van Heusen. Partners will be featured prominently in a distinct ‘neighborhood’ such as the ADT Plaza, the Cushman & Wakefield Theater, the EmblemHealth Entrance, the IZOD-Nets Team Store, the MGM Grand @ Foxwoods Bar, the MetroPCS Pavilion, and the Jones Soda Shoppe.

Brooklyn Sports & Entertainment will announce additional partners for the Barclays Center this year.

In 2008 the NETS introduced the High Point Solutions Business Center at the IZOD CENTER where lower bowl season ticket holders and corporate partners have free access to professional, first class private offices, work spaces, and conference rooms before and during NETS games, as well as during non-game days. The High Point Solutions Business Center is equipped with high-end desktop and laptop computers, with docking stations and cable Internet service, DSL modem, copier, printer, and fax machines, a 42-inch LCD television, a portable projector, and 10 phone lines.

The Barclays Center, designed by SHoP Architects and Ellerbe Becket, will be a world-class sports and entertainment landmark venue, and will be the home of the Brooklyn Nets and host to more than 200 events annually. In January 2007, Barclays, a leading global financial services company, and the NETS announced a multi-faceted strategic marketing and media partnership that includes a 20-year naming rights of the arena.
